Waters of Time

"A truly memorable evening"

Waters of Time celebrates the landscape, history, legends and myths of the Sedgemoor and Mendip area of Somerset. Ronald Corp grew up in Wells, and the libretto, which has been beautifully and painstakingly researched, includes songs about Glastonbury Isle, the Witch of Wookey Hole, the Battle of Sedgemoor, and the age-old power struggles between church and state in Wells. The vibrant music draws on a variety of traditions ranging from the simplicity of folk tunes to the full resounding power of grandiose choruses.

"Absolutely outstanding"

Waters of Time is being performed by a large group of singers from over 40 schools within Somerset, including the Somerset County Youth Choir. They will be joined by members of the well-established Somerset Chamber Choir, and accompanied by a 40-piece orchestra led by professional players conducted by Ronald Corp.

"Wondrous music and performances"

Waters of Time received wide acclamation at its world premiere to a packed Wells Cathedral in February 2006, and is now coming to Bristol. A fabulous evening not to be missed; an opportunity to see a huge number of talented young people working together to produce a very high quality musical performance.

"A pleasure and a privilege to be there"
